

# Demand Forecasting AI v2

## Wave 0 charter fixture

| Field             | Synthetic evidence                                                                     |
|-------------------|----------------------------------------------------------------------------------------|
| Initiative ID     | INIT-FORECAST-AI-V2                                                                    |
| Sponsor           | COO                                                                                    |
| Committed funding | \$3,800,000                                                                            |
| Kernel posture    | CONTINUE with measurement discipline.                                                  |
| Evidence anchor   | False-positive control: high spend but sponsor engaged and value tracking is positive. |
| Watermark         | AbarVa Synthetic - Apex Retail v1                                                      |
